Sunday, 8. October

10:00 - 12:00

Guided Tour through the Exhibition "Emil Holub"

Náprstek Museum of Asian, African and American Cultures
Betlémské náměstí 1, Prague 1

The guided tour offers an insight into the current exhibition "Emil Holub" held in the Náprstek Museum of Asian, African and American Cultures, one of the buildings of the National Museum, in which the most prominent ethnographic and anthropological objects and documents reside. This tour will introduce the seminal figure of the local "explorer" Emil Holub, whose expeditions into the African continent represent one of the grand narratives within the public ethnographic discourse. The exhibition analyses its figure from various perspectives, but namely sees it from the contemporary perspective, i.e. asking questions about the stereotypization, the myths and legends related to his figure, as well as discussing his legacy within the postcolonial studies framework.
